MRS. S. E. PETERS DIES IN CALGARY

Mrs. S. E. Peters, who has been
ailing for some time, and who was
taken to the Holy Cross hospital
in Calgary last Thursday, passed
away at that institution on Tues-
day, Feb. 14, at 4 p. m.

The late Mrs. Peters, with her
husband and family, came west
from Croton, Ont. in May 1913
and settled in Empress, at which
place she lived until August, 1924,
when she came to Carbon, where
she resided up to the time of her
death.

She leaves to mourn her loss a
husband, two daughters, Mrs. G.
W. Malton and Mrs. H. Willson,
and a son, Garnet, all living in
Carbon.

Funeral services were held from
Shaber's undertaking parlors, Cal-
gary, this afternoon (Thursday),
the Rev. J. McKelvey officiating.

Interment was made in the Cal-
gary cemetery.

Gamble Items

Mrs. C. M. Steberg and daugh-
ter Yvonne, returned last week
from Cranbrook, B. C., where they
have spent the past two months
visiting Mrs. Steberg's daughter,
Mrs. Roy Essler.

We regret to hear of the death of
Mr. Morris father of Mrs. Harry
Irwin.

The Gamble Ladies' Aid will
meet at the home of Mrs. Hart on
Thursday.

Another jolly toboggan party
took place at H. B. Congo's place
last Saturday afternoon. Three
toboggans were in evidence and
made record time down the hill.
After a lunch, games were enjoyed
by all.

Mt. Vernon News

A very interesting meeting of
the U.F.A. local was held at the
school house on Wed. last. Mr.
McCubbin gave an interesting ad-
dress on stock raising and dairy-
ing.

The next meeting will be held
on Feb. 23, when Thos. Bishop
will speak on power farming and
Mr. McLeod on weeds and their
control.

A card party was held at the
home of Mr. and Mrs. McKay last
Friday in honor of Mrs. McKay's
birthday. About 40 people were
present and all had a good time.

Dan McCuistic of Wayne, is the
guest of Mr. and Mrs. McKay for
a few days.

A Valentine party was held in
the school on Monday afternoon.
The time was spent in songs and
games, the children being treated
with peanuts and candy.

There is to be a dance in the
Mt. Vernon school on Fri. Feb.
25. Ladies bring refreshments.

Red Trail Items

Harry, Otto and Fred Becker ar-
rived home from their visit to N.
Dakota and report a fine trip, but
they are glad to be back with their
friends again.

Arthur Becktholdt and Viola
Lang were quietly married last
week and will make their home in
the Beiseker district.

Erna Becker is back again after
an operation for appendicitis, and
is gradually regaining strength.

GIRL DIES AT PATRICIA DANCE

PATRICIA, FEB. 15.—Miss Bernice
Petrie attended a dance held in the
hall after an entertainment last
night, and after dancing awhile in
apparently good health, went out-
side and fell unconscious. She
was carried to an hotel and died
without regaining consciousness.
Dr. Anderson of Brooks was called
and pronounced life extinct. She
had only been in the district three
or four days. An inquest will
likely be held at Brooks tomorrow.

—Calgary Herald
Miss Petrie is a niece of Mrs. R.
C. Barr, Carbon.—Ed.

CARBON OLD TIMERS HOLD THEIR ANNUAL ROUND-UP

Another milestone has passed
in the history of the Old Timers
association. A very pleasant even-
ing was enjoyed by everyone in at-
tendance at the annual gathering:
the ladies and gentlemen sitting
down for a whist tournament about
9.30. The prize winners were:

Mrs. T. Ramsay, Mrs. Lang,
Mrs. Wise, J. Dalziel, Mr. Wal-
dron, J. Ramsay, and consolation,
Mrs. Parker and E. Hester.

After came the dance and it
certainly was good to see some of
the old folks still able to hold their
own on the floor after the strenu-
ous years of labor necessitated to
bring the old wide prairie of mag-
nificent distances into delectable
school districts and municipalities,
dotted over with beautiful homes
and cultivated farms. This brought
about the steadfastness of the la-
dies, God bless them, who bore the
burden and worries of raising fam-
ilies far away from cities and
towns. Whilst the men followed
their foot warmers, plowing up the
bald prairie resulting in the bless-
ings we enjoy today.

About midnight the ladies again
were prominent in providing a
bountiful repast.

After the annual report was gi-
ven Dan Code gave a short speech,
which was greatly appreciated.

Ross Thorburn was elected pre-
sident, J. Ramsay vice-president,
W. Poxon sec.-treas. and Mrs.
McFarlane and Mrs. T. Ramsay
executive committee.

Another interval was enjoyed
when Mrs. McNaughton favored
us with recitations and after ano-
ther period of dancing the old timers
dispersed to their respective homes
as the dawn was fast approaching.

W. POXON,
Sec.-treas.

With a view to obtaining financial
assistance of some kind with which
to aid the emigration of Austrian
farmers to Canada, Dr. Heinrich
Montel, an Austrian Government
official, arrived in this country re-
cently on board the Canadian Pacific
S.S. "Montroyal." There are 10,000
Austrian farmers who would emi-
grate to Canada, stated Dr. Montel,
all of them practical farmers, but
they do not possess sufficient funds
to pay their passage to this country.

Egypt may include Canada among
those countries in which she will be
without representation, according to
a statement made recently by Emile
Sharteni, acting as unofficial am-
bassador to Canada who arrived in
Canada on the Canadian Pacific
liner "Minnesota." Mr. Sharteni is
trying to interest Egypt in Canadian
flour and timber, and in return ex-
pects the Dominion to reciprocate
by purchasing cotton, dried fruits,
etc., direct from Egypt instead of
through the middlemen in London
or New York.

D.F. McKINNON AND SON BADLY BURNED

A very painful accident occurred
last Saturday Afternoon when the
tar, with which D. F. McKinnon
was coating the roof of the Farm-
ers' Exchange, caught fire, and in
attempting to remove the burning
mass from the flame it was acci-
dently upset, the hot tar exploding
when hitting the cold snow and
shooting flames in all directions
caught Mr. McKinnon and son,
Rudolph, burning them so bad
about the face and hands that they
one would hardly recognize them.
Dr. McFarlane was immediately
summoned and he attended to the
burns of his patients. It will prob-
ably be some time before Mr.
McKinnon will be around again,
he being the worst of the two.

VALENTINE MASQUERADE DANCE DRAWS BIG CROWD

The Valentine Masquerade dance
given by the School Fair Associa-
tion on Monday night was well pa-
tronized by the people of Carbon
and district, and the majority of
dancers were dressed for the occa-
sion in the most varied and artistic
costumes. The music by the local
5 piece orchestra was up to its us-
ual high standard and they left
nothing to be desired in their line.

Besides the lucky number dances
prizes were also awarded for the
costumes as follows:

Ladies' comic, Mrs. Devil.

Ladies' Fancy, Mrs. McMann.

Ladies' best representation of a
local business, Miss B. Smith, as
the Wilkinson Hardware.

Men's comic, Mr. Devil.

Men's Fancy, R. Garrett.

Men's best representation of a
local business, Lawrence Coates as
the Carbon Post Office.

Here and There

Edmonton.—Large mouthed black
bass may soon be available to Al-
berta sportsmen for a batch of
fingerlings and yearlings from the
Kootenay Lakes have been placed in
Lac La Nonne by the Northern
Alberta Fish and Game Protective
Association.

McGill University opened her
senior football season in Montreal
at the Percival Molson Memorial
Stadium on October 2nd, with a game
against the Old Boys. One of the
most enthusiastic fans of this game
is E. W. Beatty, President of the
Canadian Pacific Railway, who is
an annual ticket holder, and who will
be present at all the big games this
season.

In a recent despatch from the
west, W. L. Smith, former editor of
the Farmer's Sun, estimates that
approximately \$1,000,000,000 will be
added to Canada's income this year
from the products of the farms of
Western Canada. Last year's field
crops were valued at \$1,112,691,000
to the growers and it put the west
in the prosperity column. Mr. Smith
believes it is a fair assumption that
this year the return will not be less.

An interesting estimate of Can-
ada's per capita wealth has been
made by the League of Nations, with
comparative figures of 22 years ago.
In 1925 the per capita wealth in
this country amounted to \$2,406, as
contrasted with \$1,100 per capita in
1903. Out of the 35 nations listed,
Canada ranks third, the United
States showing \$2,918 and Great
Britain \$2,459 per capita, respec-
tively.

Well-Known Home Builder Quickly Restored To Health

Victim of Nervous Indigestion, Loss of Sleep and Intolerable Pain, Father of 8 Children, Finds Long-Sought Relief, Strength Restored, Praises Tanlac.

Joseph A. Brunel, a well-known Montreal building contractor, 7043 Avenue Street, says: "The health and the splendid health of the strong man will break under the strain of modern living."

"I was suffering much more when I began taking Tanlac. My stomach had become so weak that I couldn't eat anything, I couldn't enjoy life as other men did. I had lost weight and was weaker by half like pains."

"I was completely discouraged when Tanlac was recommended to me and I took it. I recommend it to anyone who is suffering."

"This man worked wonders with me. I began to feel strong again. I began to have a great appetite and was eating without a sign of pain. Three weeks later what it was to have a good night's sleep, Tanlac certainly put me on my feet. I am stronger and have my health back. I have had no more pain."

"Tanlac really builds up strength. It builds up strength in the stomach and builds up strength in the whole body. It relieves the pain of indigestion caused by constipation."

and sluggish liver. It is nature's own remedy made from roots, herbs and berries according to the famous Tanlac formula.

"British sickness from your life and enjoy the benefits of golden health. Begin taking Tanlac. The first bottle usually brings results that will surprise you. Ask your druggist for Tanlac today."

Survivors Of a Bygone Age

Newspapers throughout Canada recently printed accounts of a decision reached by the ratepayers and trustees of a school district in Ontario which is almost unbelievable in this day and generation. The little school house in this particular district is heated by oil lamps, and, according to the teacher, for at least twenty-five days in the year the heat is so poor the children can hardly see the blackboard. Under the circumstances a community club offered to pay the cost of the installation and maintenance of electric light, an offer which presumably the school district officials would be only too glad to accept.

On the contrary the offer was refused and the reason for refusal was that all things were good enough years ago and consequently were good enough now. That, in a word, what was good enough for their fathers and grandfathers was good enough for their children and grandchildren.

If the ratepayers of this Ontario school district are consistent, one is forced to the conclusion that they still carry on their farming operations with horse and plow, hand sickles and scythes, according to the modern farm machinery that they plow to town with a yoke of oxen, and utterly despise such new fangled notions as railway trains or automobiles; telephones, telegraphic and radio must be anathema to them.

For surely for Canada there are few people of the same mind as these Westminster township school ratepayers. It was not men of this type which built up this Dominion. Rather, the pioneers who came first into Eastern Canada and later pushed out over the almost boundless expanses of the prairies were men and women determined that, whatever hardships they had to undergo, they would put up with them, their children and their children's children should be better off. They were most decidedly of the opinion that what was good enough for their grandfathers was not good enough for them, and the best was not a bit too good for their children. Consequently they conquered the virgin forests and the virgin prairie, made homes, constructed roads and railways, built cities, schools and universities, and made Canada what it is today.

This constant yearning for something better, this invariable demand for development and improvement, is the glory of mankind, the distinguishing mark between man and the beasts. In it is to be found the secret of all progress. Without it the world would stagnate, deteriorate, and become hopelessly lost.

It may be that some of the younger generation of today are demanding too much; that they insist upon beginning life where their fathers left it, and expect ease and comfort and the rewards which labor alone can bring without expending the effort which all must make if they would really enjoy life and prosper in this world. But placing a proper restraint upon such ill-considered desires, and curbing such youthful folly, is an entirely different thing to depriving the children of today of the advantages with which science, invention, and years of enlightenment have blessed the world.

Apparently this little group of ratepayers and school trustees are not only willing to endanger the eye-sight of their children but would condemn them to lead the same benighted, ignorant and unprogressive lives they apparently are content to live. We venture to predict the children will rebel and at the earliest possible moment break away from their home environment and launch out into the world of light, progress and advancement.

The strong guarantee of keeping the boys and girls in the old home of rest, and preventing them from flying off to the cities and other faraway lands presenting green fields, is to make the old home surroundings as up-to-date and attractive as possible, thereby providing a powerful rival to the other world which beckons. If parents and communities realize this and act accordingly, they will also find they have a great ally in the appeal which some always make to every boy and girl.

The ratepayers and school trustees of Westminster township, Ontario, provide a horrible example of how not to do things.

Children Cry for

Fletcher's CASTORIA

MOTHERS:— Fletcher's Castoria is a pleasant, harmless substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrup, especially prepared for infants in arms and Children all ages.

To avoid imitations, always look for the signature of *W. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Queer Rite Observed By Hindu Pilgrims

Circle Sacred Places by Series of Prostrations

When Hindu pilgrims visit a sacred place they go around the spot by a continuous series of prostrations.

They carry a stone in their hands and when they drop on the ground they stretch their arms out as far as possible and leave the stone on the ground so as to measure their length.

Then they arise, walk the six or seven feet to the stone, and pick it up. Again they prostrate themselves, leave the stone, arise, and so on until they have returned to the starting point.

Many of the circuits are more than three miles in length, and it requires an entire day to make the whole trip.

Each mile usually requires one thousand prostrations, and when a devotee has dropped three thousand times he is so nearly dead that he rolls over in the dirt to the side of the road and rests there until the next day.

Home Not Complete Without Nerviline

When your stomach is badly upset, when you are belching gas and suffering from nausea, the quickest relief will come from 20 drops of Nerviline. Take it in sweetened water and you get an immediate result. Nerviline has been used for nearly half a century and is considered a necessity in most homes, because of its usefulness in preventing many small ills that constantly arise. Sold everywhere in 3-cent bottles.

The wine of good nature is the best attendant in the world. The man or woman possessing a well of this pure vintage has friends anywhere he or she goes.

A WEAK STOMACH

Can be Strengthened Through the Use of Dr. Williams' Pink Pills

Wonderful is the process by which the chemistry of the body changes the food we eat into blood. And the whole of our well-being depends upon this being maintained day after day, year in and year out. Sometimes the process becomes faulty, and then food begins to poison the blood instead of feeding it. This is followed by all the pains of indigestion, such as gas on the stomach, pains around the heart, often nausea after eating, and a dislike for all kinds of food.

The only way to overcome these troubles is to tone up the digestion so that you can assimilate all your food. To do this you have only to take Dr. Williams' Pink Pills. A short course of these pills will quickly tone up the stomach and banish indigestion. Here is a bit of convincing proof given by Mrs. Clara Linder, Ellerslie, P.E.I., who says: "For some years I was a sufferer from stomach trouble. Everything I ate caused distress, sour stomach and belching. I could not eat meat or potatoes, and I grew weak and nervous. No medicine seemed to help me until I was persuaded to take Dr. Williams' Pink Pills, and these simply worked wonders. I took the pills faithfully for a couple of months by which time every symptom of the trouble disappeared, and there has not since been the slightest symptom of stomach trouble. No wonder I praise Dr. Williams' Pink Pills."

You can get these pills through any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Liquor Habit

Victims of this habit will be interested to learn that the celebrated treatment of the Normyl Association, of London, England, can now be obtained in Canada. This treatment which removes all craving for alcohol in a few days has, among other prominent people, been endorsed by Lord Northcliffe, Lord Armstrong, Sir Charles Morrison Bell, Sir Edward O'Malley, Sir Arthur Wilson, Sir Owen Seaman, The Prime Minister of Ireland, The Bishop of Winchester, the Bishop of Chichester, Physicians, Magistrates, Church Institutions, and Press of Great Britain. Particulars regarding the treatment can be obtained from Mr. J. W. Dixon, 529 Stratford Boulevard, Toronto 6, Ontario.

Paring a corn is both risky and ineffective. It is much better to use Holloway's Corn Remover and eradicate them entirely.

"I would like to put it this way, my lord," said counsel. "Suppose I were to see your lordship going into a public house."

"Coming in," corrected the judge.

American Economist Refutes Belief That Present Generation Enslaved By Use of Machinery

"In this new age, if we are wisely guided, all may be relieved of drudgery, all may have a surplus of energy with which to do what they like instead of being compelled to use all their energy doing things which necessarily compels, since the machine is more and more displacing cheap labor, not only in the productive establishments but also in the household," writes Professor T. N. Carver of Harvard University in January "Current History." "It is the machine that makes the high wages and the light work of the present day and the still higher wages and still lighter work of the future possible, since the world over a high product per worker goes with a high wage rate and a low product per worker with a low wage rate. It is the machine that is relieving housekeepers, small shopkeepers and farmers of the soul-killing drudgery to which they formerly were slaves."

"It is objected that this will make us all slaves of the machine. That it will make us more and more dependent upon machinery is true, but we shall be no more dependent upon machinery than slave owners were upon their human slaves or than well-to-do persons have always been upon hired help. To be dependent upon some one or some thing does not necessarily make us a slave of that person or that thing."

"Others find an objection in the fear that we are coming to be dominated by things, or that we are becoming too much obsessed with the value of mere things. Before we pronounce the word 'things' in too scornful a tone, we shall do well to consider carefully what mere things, in the sense of mechanical contrivances, have contributed to the larger and finer life of the present. Without mechanical contrivances, for example, our ability to communicate with our contemporary fellow-beings would be limited to the carrying power of the human voice and the running power of the human legs and we could benefit by the thoughts and achievements of past generations only in so far as the human memory supplemented by oral transmission could hand them down to us."

"Of course, machines are not everything. A modern Martha in the most up-to-date house with every known mechanical device to save work may lack the soul of Mary; but that is not the question. The question is, Given the soul of Mary, would the fact that she had the benefit of labor-saving devices destroy that soul? To say 'Yes' would not be much of a tribute to the soul of Mary. These devices merely relieve the bodies of the Marys and Marthas of much drudgery and release energy to be used in whatever ways their souls may desire."

Feeding Dairy Calves

Changing From Whole to Skim Milk is Critical Time

Calf-feeding is of momentous importance to the dairy. The method pursued at Nappan, N.S., Dominion Experimental Farm is as follows, as told in the last report of the Superintendent, Mr. W. W. Baird. The calves receive a mixture of 4 parts bran, 2 parts oats, 1 part oil meal, and 1 pound bone meal per 100 pounds meal fed for the first year. Until the calf is about six to eight weeks old whole milk is fed and then a gradual change is made to skim milk. At this time a small amount of flax seed jelly is fed, starting with about one quarter pound and increasing by degrees to one pound per day. The amount of dry grain hay and roots fed increases as the calf grows older. The main thing remarks Mr. Baird, is to keep the calf from getting a setback when changing from whole to skim milk and to keep it in good growing condition.

The average weight of the heifers at Nappan farm at one year of age is 600 pounds. The average cost of rearing bull calves (Guernseys) until a year old is placed at \$55.86, of heifers at \$56.26, and of grade heifers at \$43.22.

Forty first-aid stations have been installed at busy traffic centres in London.

London caterers made more than a million Christmas puddings this year, and shipped all over the world.

Manitoba Wheat Helps Clay Belt

Experimental Samples Produce Exceptionally High Yield at Kapuskasing

The possibility of converting the clay belt of northern Quebec and Ontario into a profitable wheat raising area has been indicated by experiments which the Dominion Experimental Farm at Kapuskasing, Ontario, has been conducting with Manitoba No. 1 hard Marquis wheat.

In a report which has been received by Dr. W. J. Black, director of the Agriculture and Natural Resources Department of the Canadian National Railways, it is stated that where this wheat was sown by Smith Ballantyne, superintendent of the farm at Kapuskasing, the wheat grown from the samples weighed 62½ pounds per bushel with a yield of 54.4 bushels per acre.

As a result of this experiment it is expected there will be a large increase in the acreage sown to wheat along the lines of the Canadian National Railways both east and west of Cochrane where colonization has been proceeding at a satisfactory rate.

A Smart Tailored Blouse and New Skirt

Very smart is the tailored tuck-in blouse of English broadcloth shown here, having a centre-front opening, long sleeves gathered into wristbands, a patch-pocket and shaped collar. There is an applied yoke at the back, but this may be omitted if desired. No. 1509 is in sizes 16, 18 years, 38, 40 and 42 inches bust. Size 38 requires 2½ yards 39-inch material, or 1½ yards 54-inch. Price 20 cents the pattern.

Plaid flannel fashions the skirt having two inserted godets in the front. In the back, and a buckled belt is run. There is a hip pocket at the right side through loops. This skirt is fitted 2 inches below the normal waist line. Purchase ladies' pattern by hip measurement. No. 1505 is for ladies and misses and is in sizes 16, 18 years, 30, 32 and 34 inches waist. Size 30 requires 1½ yards 39-inch material, or 1½ yards 54-inch. Price 20 cents the pattern.

Our Fashion Book, illustrating the newest and most practical styles, will be of interest to every home dress-maker. Price of the book 10 cents the copy.

Marsh Lands for Fur Farming

Saskatchewan Government Taking Over Area Required in Province

Negotiations between the Saskatchewan and Dominion governments, regarding the leasing of marsh lands for fur farming purposes, have now been completed and arrangements are being made to turn over certain crown lands for this industry, Hon. C. M. Hamilton, provincial minister of agriculture announces.

Large areas of marsh lands controlled by the crown are available for fur farming in the northern part of Saskatchewan, and there is reported to be a moderate demand for such land.

The fur farming industry is so intimately bound up with the control of wild life, for which the provincial authorities are responsible, that it was considered impossible by the Dominion Government for one to be divorced from the other. An agreement was consequently reached whereby the Saskatchewan government is authorized to take over available Dominion land in the province required for the development of the industry.

Has Abundance of Good Coking Coal

Plenty in Alberta and B.C. for Industrial Purposes

That there is plenty of coking coal in Alberta and in British Columbia for industrial purposes was the statement made by C. C. Ross, Dominion Government engineer, Calgary, in reply to the assertion of Hon. T. A. Crerar in a speech in Montreal that there would be difficulty in industrial development in Western Canada largely because there is no coking coal or iron between Cape Breton and British Columbia.

Mr. Ross stated that all the big mines in the Crow's Nest Pass, which lies partly in Alberta and partly in British Columbia, could produce coking coal and that the International Coal Company at Coleman, Alta., was actually producing coke.

In addition, the Ford-Burns mines in the Sheep Creek and Highwood River districts had plenty of coking coal awaiting development.

As for iron, Mr. Ross did not know of any big deposits in Alberta or British Columbia.

Owing to the high cost of coal, a scheme has been fostered for the distillation of peat, or, as it is commonly called in Ireland, turf, enormous quantities of which exist in the British Isles. From it can be obtained paraffin and asphalt and other by-products.

Wonderful Progress Made By the Dairy Industry in The Three Prairie Provinces

It is only in recent years that the Prairie Provinces of Canada have taken seriously to dairying, but the industry has made wonderful progress, and the manufacturer of dairy products in Western Canada has become one of the most pronounced features of Canadian agriculture. The vast areas of Western Canada still unoccupied or still devoted entirely to grain growing are well adapted to the production of milk, and in all probability the greatest expansion of the Canadian dairy industry in future will take place in these provinces. A feature of the butter made on the prairies is its excellent keeping quality, a very important consideration now that there is a surplus for export. The fine quality of the dairy products of Manitoba, Saskatchewan and Alberta is also shown by their popularity in open competition. The entries of these provinces in international and interprovincial exhibitions have repeatedly won leading prizes wherever shown.

Between 1900 and 1924 the butter production of British Columbia, Alberta, Saskatchewan and Manitoba increased from three to fifty million pounds and the cheese production of 1¼ million pounds was doubled. Alberta has now replaced Manitoba as the leading dairy province of the west and the Saskatchewan figures show a doubling of production every five years. It is predicted that by 1930 the production of Western butter will exceed 100 million pounds of which possibly three quarters will be available for export. Such an exportable surplus would definitely place Canada among the world's outstanding dairying countries.

The estimated current (1926) production is as follows:

	Manitoba	Saskatchewan	Alberta
Creamery Butter, lbs.	15,449,000	16,550,000	20,750,000
Dairy Butter, lbs.	9,236,000	18,700,000
Cheese, lbs.	911,000	310,000	1,350,000

The value of all dairy products was estimated at \$56,800,000 for the season of 1926.

The free homestead policy, whereby a qualified person may acquire a quarter-section of land by the performance of certain residence and improvement duties, still applies to the public lands in the Prairie Provinces, except the southern portions of Saskatchewan and Alberta, but with the exception of the northern districts of the three provinces suitable lands available for homestead entry within easy reach of railroads are practically exhausted. There are, however,

tens of millions of acres of fertile lands lying idle within 10 and 15 miles of existing railways. These lands are privately owned and many of them can be purchased at reasonable prices. The Natural Resources Intelligence Service of the Department of the Interior, Ottawa, issues lists of such lands, giving brief particulars, including location, prices, terms and owners' names and addresses. These lists are available to prospective homesteaders and purchasers.

Held Up New York Traffic

Six Subway Trains Stalled Before Small Dog Was Coaxed off Track

Refusal of a little black dog to leave the subway track on Brooklyn Bridge resulted recently in a 20-minute tie-up of traffic and the calling of police reserves. Before the dog was coaxed into the arms of a policeman six trains were stalled and nine policemen, six motormen, 19 guards, 40 motorists and more than 100 passengers discussed the best method of removal. The dog was booked at the bridge precinct police station on a charge of "tying up traffic at a dense centre" and sentenced to the dog pound for the night.

Place in Rotation to Seed Fall Rye

Yields Better When Rotated With Barley Instead of Wheat

Conclusions reached at Lacombe, Alberta, experimental station relative to the place in rotation of seeding fall rye are of interest and value. As given in the last report of the Superintendent, Mr. F. H. Reed, these in brief are:

Fall rye does not work in well in a rotation where wheat precedes it.

Barley is a better crop than wheat to precede fall rye in the rotation.

Ploughed barley stubble has advantage over disked barley stubble in a wet fall. In a dry fall the reverse is the case. Taking one year with another the expense of ploughing the barley stubble is not justified.

Oats for grain or green feed is not a suitable crop to precede fall rye in the rotation, the yield of the rye being lower than where it follows barley or even wheat.

An annual pasture of 2 bushels oats and 1 bushel fall rye has been found a most dependable pasture.

Advantage of seeding fall rye on sod that has produced a crop of hay during the current season, and has been ploughed after harvest for the fall rye seed-bed, depends largely upon the amount of moisture in the ground and the amount of precipitation. Poor results follow a dry season, but reasonably good results will be had in wet years.

Sell Valuable Mare

Herod's Pride, Mare Imported into Canada by Prince of Wales, Now Goes to California

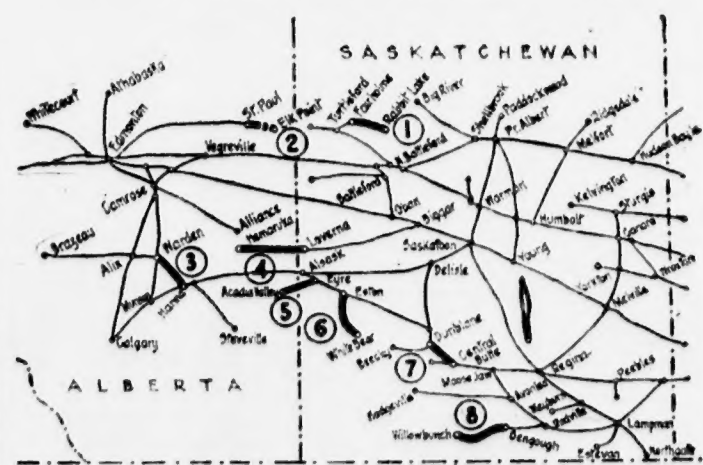

Herod's Pride, the mare imported into Canada by the Prince of Wales, and owned by Fred Johnston of Calgary, since last September, has been sold to the Brown Shasta Stud Farm in California for a sum in excess of \$5,000. Since coming to Canada, this stately daughter of Rol Herod has won fifteen races, eleven of them since May 24th last year.

Increasing Merchant Fleet

Great Britain is increasing its merchant fleet, already the largest in the world, by tremendous strides. There has been a considerable number of orders placed in British shipyards during the past weeks, the latest being for 20 steamers totalling 165,700 tons, for Cardiff shipowners, to cost nearly £7,500,000.

Bees often become intoxicated in autumn, absorbing the alcohol from plums.

CANADIAN NATIONAL EXTENSION IN WEST

The branch line programme of the Canadian National Railways was actively pursued in 1926, especially in Saskatchewan and Alberta, where a total of approximately 290 miles of new line was completed. The construction of this additional mileage will permit the company to add further improvements to its passenger and freight service; will shorten some of the routes, thus allowing for a lowering of operating costs, and has opened new territory to the homeseeker. In the accompanying map the new branches are shown by heavy lines. The work in detail is as follows:

- 1.—Turtleford-Southeasterly. 42.2 miles. Open for traffic early this year.
- 2.—St. Paul-Southeasterly. 20.5 miles. Train service will probably be extended over this new section early in 1927.
- 3.—Warden-Hanna. 62.1 miles. Completed and regular mixed train service was established on this line effective October 22.
- 4.—Loverna-Westerly. 50.0 miles. It is expected train service will be in operation to Hemaruka early this year.
- 5.—Acadia Valley. 24.6 miles. Completed and regular mixed train service became operative December 1st, between Alsask and Acadia Valley.
- 6.—Eaton-Southeasterly. 24.7 miles. Expected to be in operation early in 1927.
- 7.—Dunblane-Southeasterly. 27.6 miles. This important extension was opened for regular traffic on November 22nd when through train service was established between Regina, Moose Jaw, Dunblane and Saskatoon.
- 8.—Willowbunch. 28.4 miles. Completed and through passenger train service established between Willowbunch, Radville and Avonlea effective November 22nd.

YOU VALUE YOUR REPUTATION AS WE VALUE OURS

And we stake our reputation of over 30 years on the quality and value in every package of Red Rose Tea.

The risk is ours, not yours, and is taken thousands of times every day, because every package of Red Rose Tea is guaranteed to please you or your grocer will replace it free of charge.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good.

Bartholomew di Francesco Cristofoli, an Italian, invented the piano in 1726.

**INDIGESTION, GAS,

Meals Digest

The moment you eat a tablet of "Pape's Diapiesin" your indigestion is gone. No more distress from a sour, acid, upset stomach. No flatulence, heartburn, palpitation, or misery making gases. Correct your digestion for a few cents. Each package guaranteed by druggists to overcome stomach trouble.

A collection of French stamps recently was sold for \$3,500.

Was So Nervous The Least Noise Made Her Jump

Mrs. W. H. Yates, Ashern, Man., writes: "I was bothered very much with my heart and nerves, and the least noise would make me jump and almost stop my heart beating."

I told my mother about it one day, and she said that she had been bothered the same way and told me to get a box of

When I had taken the one box I felt quite a lot better and by the time I had taken three boxes I got relief."

Price 50c. a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Nothing circulates so rapidly as a rumor.

WORLD HAPPENINGS BRIEFLY TOLD

Eugene Turpin, noted chemist and inventor of melinite, an explosive, died recently at Pondichy, a short distance from Paris.

John Bull now claims to have the latest aeroplane in the world—a single seated fighting machine with a 700 horsepower engine.

Seven hundred young men have already applied for passage to Canada from Dundee alone, all anxious for work in the harvest season.

Agnes Maude Macleod, 90, well known author and poetess, is dead at her home in Kingston after a lengthy illness.

It is reported from Luxor that amongst the latest finds in Tut-Ankh-Amon's tomb is a royal ostrich feather fan of alternating black and white plumes of great length in a wonderful state of preservation, with a semi-circular gold centrepiece and a lengthy gold handle.

The London Daily Mirror understands that Lieut. General Sir Charles Harrington is likely to be appointed commander-in-chief in India. General Harrington, who had a splendid record in the European war, further distinguished himself in the post war negotiations with Turkey.

Mothers Value this Oil.—Mothers who know how suddenly croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Eucalypti Oil, because experience has taught them that this is an excellent preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

A bank in Portland, Me., has installed a periscope as protection against bandits and burglars. A small peephole on the street level enables the police to see into the vaults at any time.

Doctors vouch for Minard's Liniment.

Tiers Are Smart This Season

Exceedingly smart is this attractive frock. The bodice has soft gathers at each shoulder, a deep V opening, and a vestee with convertible collar. The long darted sleeves are finished with scalloped cuffs to correspond with the triple tiers attached to a fitted foundation skirt. A crushed ribbon girdle, of a matching or contrasting shade, is tied in a bow in front. No. 1482 is for ladies and misses and is in sizes 16, 18 years, 38, 40 and 42 inches bust. Size 38 requires 3 1/2 yards 39-inch material, or 3 yards 54-inch, and 7 1/2 yard 36-inch material for foundation skirt. Price 29 cents the pattern.

The designs illustrated in our new Fashion Book are advance styles for the home dressmaker, and the woman or girl who desires to wear garments dependable for taste, simplicity and economy will find her desires fulfilled in our patterns. Price of the book 10 cents the copy.

In all intimate complaints that are the result of the depredations of worms in the stomach and intestines Miller's Worm Powders will be found an effective remedy. They attack the cause of these troubles, and by expelling the worms from the organs insure an orderly working of the system, without which the child cannot maintain its strength or thrive. These powders mean health and improvement.

This Great Mystery Message contains four words and is the slogan of a well known hosiery firm. Each little group of letters represents a word and forms a message of interest to you. For instance, the second jumbled group of letters is HOES and when put in its proper order, is HOES.

If your solution is successful in winning 100 points, the maximum for being correct, we will write you and show you how first prize can easily be won. Be neat and careful. Comply with the rules.

SOLVE THIS PUZZLE AND WIN FIRST PRIZE

If you are clever enough to solve this fascinating puzzle, you have opened the way to being declared first prize winner.

This Great Mystery Message contains four words and is the slogan of a well known hosiery firm. Each little group of letters represents a word and forms a message of interest to you. For instance, the second jumbled group of letters is HOES and when put in its proper order, is HOES.

If your solution is successful in winning 100 points, the maximum for being correct, we will write you and show you how first prize can easily be won. Be neat and careful. Comply with the rules.

WHY THIS CONTEST IS RUN

This is an advertising contest. We want to make you and your friends acquainted with the wonderful Wearwell Hosiery made in all the better grades of pure silk, silk and wool, and pure wool for the whole family, and sold direct to wearer.

SEND NO MONEY. COSTS NOTHING TO COMPETE

There is no entrance fee, nor do you have to spend your money to compete to win the highest prizes. This is not a sales contest for the largest sales. EVERYBODY'S OPPORTUNITY IS EQUAL.

WEARWELL HOSIERY CO., Dept. 77, 76 YORK ST., TORONTO, Ont.

SUNDAY SCHOOL LESSON

FEBRUARY 6

THE PRACTICE OF CHRISTIAN STEWARDSHIP

Golden Text: Thou hast been faithful over a few things, I will set thee over many things: enter thou into the joy of thy lord.—Matthew 25:21.

Lesson: Matthew 25:14-30.

Devotional Reading: 2 Corinthians 9:6-11.

Explanations and Comments

1. The Parable, verses 14, 15. Jesus is speaking to His disciples about the Kingdom of Heaven, and he begins a parable by saying that the situation is comparable to that of a man who, about to go into another country, calls his servants and delivers to them his goods. "The story is true to the oriental life of the period; for, when a wealthy man was leaving his home for awhile, two courses were open to him for the arrangement of his affairs; either he might make his confidential slaves his agents, committing to them the tilling of his land, and giving to them his money to be used by them in trade; or he might take advantage of the money-changing system which had been introduced by the Phoenicians, and which was at the time in full operation throughout the Roman Empire." (Wm. M. Taylor.)

In his interpretation of the parable, the "man" represents Christ; his "goods" stand for all possessions—life, physical and mental powers, etc.—which are represented as God's property, entrusted to men, his servants, as a loan.

The servants were all trustworthy, but they differed in capability, and the master apportioned his goods among them according to his judgment of the ability of each. Unto one he gave five talents, to another two, and to another one. Even the one talent represented a considerable sum, about one thousand dollars, whose value is recognized when we recall that a denarius was a day's wage, and a talent was the equivalent of six thousand denarii. In the interpretation of the parable, the "talents" are the "goods," whatever is given to each one for use and improvement. Our use of the word "talent" to signify mental gift or skill in accomplishing anything is derived from its use in this parable.

Little Helps For This Week

I am with thee, and will keep thee in all places whither thou goest.—Gen. xliii, 15.

Lord, be Thou near, and cheer my lonely way.

With Thy sweet peace my aching bosom fill;

Scatter my cares and fears, my griefs, altho;

And be it mine each day

To love and please Thee still.

—Pierre Corneille.

What a joy to know that of all things and all thoughts, God is nearest to us!—so near that we cannot see Him; but far beyond seeing Him, we can know Him intuitively.

—George MacDonald.

God is where the sun glows; God is where the violet blooms, is where you bird flaps its wings. Though no friend, no man be with thee, fear nothing! Thy God is here.

—Dinner.

Complete In Itself, Mother Gray's Worm Exterminator does not require the assistance of any other medicine to make it effective. It does not fail to do its work.

IF BILIOUS, SICK OR CONSTIPATED TAKE "CASCARETS"

No headache, bad cold, sour stomach or costive bowels by morning

Get a 10-cent box now. You're bilious! You have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes; your lips are parched. No wonder you feel ugly, mean and ill-tempered. Your system is full of bile not properly passed off, and what you need is a cleansing up inside. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that most disorders of the stomach, liver and bowels are cured by morning with gentle, thorough Cascarets—they work while you sleep. A 10-cent box from your druggist will keep your liver and bowels clean; stomach sweet, and your head clear for months. Children love to take Cascarets because they taste good and never gripe or sicken.

A 25-story building in Providence, R.I., is to be surmounted by an enormous lantern, the light of which will be visible in three states.

Athletes use Minard's Liniment.

The date of the minstrel show,
which is to be followed by a dance,
has been set for Thursday Feb. 24.
The committee in charge has made
a request that all children attend-
ing, sit with their parents, instead
of crowding to the front of the
hall, as is usually the case.

Mr. and Mrs. E. Maxwell have
announced the marriage of their
daughter, Myrtle, to Mr. L. A.
Coates, the date being set for the
first of March.

The weather has turned some-
what colder the past week, the
mercury falling to 38 below on
Wednesday evening.

Miss Dorothy Campbell, who
has been visiting with her sister,
Mrs. Wm. Olive, for the past week
left yesterday for her home in
Munsen.

A. Davis and J. Holmes, of the
Bank of Montreal staff, left Tues-
day for Drumheller, where they
will give evidence in the E. Werth
forgery case, which is being held
at that point this week.

The "Lost Silver" will be the
subject at the Union church next
Sunday evening.

Robert Boyle is enjoying the
Winter in Vancouver.

Mr. and Mrs. G. W. Malton,
Mr. and Mrs. G. Peters, and Mrs.
Willson left for Calgary yesterday
to attend the funeral of their mo-
ther, Mrs. S.E. Peters.

Come and see the humorous Ir-
ish play, "Patsy," in the Masonic
hall on Fri. Feb. 25. This play
is being put on by the C.G.I.T.,
the proceeds to go to the Provin-
cial Girls Work Board.
Admission 50c, children 25c.

At the monthly meeting of the
Village Council, held last Monday
night, the secretary was given au-
thority to prosecute all those who
still persist in putting ashes on the
streets and in the lanes. It was
moved and passed that all dogs
must show a license tag before the
15th. of March, or they will be de-
stroyed. It was also moved and
carried that any person crossing
sidewalks with vehicles will be
prosecuted.

Asbestos waste as a soil strength-
ener is the latest in the line of by-
products. Early this year the De-
velopment Branch of the Canadian
Pacific Railway undertook an in-
vestigation and inaugurated a se-
ries of experiments in the use of
this material. Macdonald College
actively co-operated and results so
far show that this material has a
real value when applied to certain
soils.

A valuable consignment of twenty-
six silver black foxes valued at ap-
proximately \$20,000 was handled by
the Canadian Pacific Express Com-
pany in Montreal recently. The ani-
mals were shipped directly from
the Meritt Silver Black Fox Ranch
at Meritt, B.C., and will be for-
warded to Messrs. Baulon and
Paulin, Grenoble, France, to a
new fox ranch of which this Brit-
ish Columbia shipment will be the
nucleus.
